

Childminder Professional Development Programme

Childminder Professional Development

Achieving Early Firm Foundation

Achieving Further

Achieving More

Achieving Schools

Extensive, bespoke and affordable: the Childminder Professional Development Programme has been developed by Achievement for All in partnership with experts at the Professional Association for Childcare and Early Years (PACEY).

It is designed to help childminders raise the aspirations, access and achievement of all children in the early years, including those with special educational needs and disabilities (SEND).

- Gain affordable access to year-round support and resources
- Ensure all children have their needs met, and are fully ready for school
- Further your professional development

Through three structured modules the programme not only covers working with families to support child learning, but also how to collaborate with professionals across the sector to meet the needs of more vulnerable children.

The programme consists of:

- Three interactive modules, Parents in Partnerships, Working in Wider Child-Centred Partnerships and Understanding Behaviour, with unlimited access to related research, advice and articles
- 15 hours of self-directed online learning and 50 hours of extended study
- Access to a specialist coach who can answer your questions about the course at any time by email

How it works

The programme is hosted on the PACEY website pacey.afa3as.org.uk and costs £49.99, with a 10% discount for PACEY members.

This fee provides access to the programme for one year and the option to renew on an annual basis after that, when new material will be added.

Once the programme is completed you will be able to record your learning in an 'evidence of change in practice' form and download a certificate of completion for your records.

Achievement for All also plans to offer in the near future wider opportunities through the programme, such as peer networking and group coaching.

Achievement for All is a leading not-for-profit organisation that works in partnership with early years settings, schools and colleges, improving outcomes for all children and young people vulnerable to underachievement regardless of background, challenge or need.
